

Internet of Things and Digitalization Services

Game-Changing IoT Solutions for Global Industry Leaders

Businesses, in industries such as transportation and oil and gas, have been applying IoT solutions in automation and M2M applications for decades now. However, more enterprises have entered the race to digitalize their field assets and increase their devices' connectivity for rapid data transfer, monitoring, and controls. *Powersoft19* excels in providing global industry leaders with customized, sophisticated, and result-oriented IoT solutions. Our professionals tap into the full potential of today's cyber-physical systems era to create powerful and effective IoT solutions. We have successfully completed numerous M2M and industrial automation projects with impressive business outcomes during the last 20 years. Our experts tackle all disruptive changes in technology to help our clients streamline their new and legacy business operations with ease.

Powersoft19's Remote e-Management Solutions (ReMS) is a flexible framework that caters to the needs of diverse industries at varying stages of adopting IoT processes. We have a unique end-to-end services model encompassing hardware, firmware, connectivity, data gathering and processing, and consultancy. With the customizable ReMS framework and accompanying services, *Powersoft19* experts will get you started on the journey of adding capabilities and introducing innovative services through IoT in no time.

Services Offered

- Preventive Equipment Maintenance
- Quality Management
- Business Intelligence
- Process Automation
- Application Management
- Cloud Management
- Remote Data Monitoring
- Environmental Monitoring
- Energy Consumption Optimization
- Inventory and Asset Management
- Remote Diagnostics & Analysis
- Live-Feed Video Surveillance

Technology Stack

Connectivity

Wireless, NFC, 4G LTE, Ethernet, GSM Network, Bluetooth, REST, AMQP, WebSocket, TCP/IP, BLE, Wi-Fi, GPRS/2G/3G/4G/5G, Zigbee, CAN/CANopen, iBeacon, RFID, SigFox, LoRaWAN, NB-IOT

Languages

Microsoft .NET, Java, Python, Node.js, PHP, C++, Go, HTML5, CSS, JavaScript, AngularJS, React.js, MeteorJS, Vue.js, Ember.js, Next.js

Supported Protocols

HTTP/HTTPS, TCP, XMPP, UDP, MQTT, CoAP, AllJoyn

Amazon Web Services

IoT Device Management, IoT Things Graph, IoT Core, IoT Events, IoT Greengrass, IoT Device Defender

IoT Data Analytics and Machine Learning

Apache Cassandra, Amazon DynamoDB, Apache Hbase, Apache Hadoop, Apache Kafka, Apache Storm, Apache Spark, MLlib

Cloud Databases and Storage

> AWS

Amazon S3, Amazon Redshift, Amazon DynamoDB, Amazon DocumentDB, Amazon Relational Database Service, Amazon ElastiCache

> Azure

Azure Data Lake, Azure Blob Storage, Azure Cosmos DB, Azure SQL Database, Azure Synapse Analytics

> Google Cloud Platform

Google Cloud SQL, Google Cloud Datastore

Mobile

iOS, Android, Xamarin, Apache Cordova, Progressive Web Apps, React Native, Flutter, Ionic

Open-Source IoT Platforms

ThingsBoard, ThingSpeak

Contact Us

Drop us a line and let us know what we can do for you. There is no limit to what can be made possible with our passionate team. Here are some examples:

- › Come up with ideas to solve challenging issues faced by your business.
- › Execute complex project/product ideas.
- › Take the burden of managing legacy products off your shoulders.
- › Provide a skilled project team to augment your in-house resources.
- › Provide consultancy regarding industry standards and market trends.
- › Design a customized partnership model with *Powersoft19* that empowers you to beat the competition.
